The conference will address future strategies, and provide organizations from India a platform to showcase their success stories. The program will have participation of about 400 professionals; a mix of Senior Healthcare Leaders, Quality Managers, Physicians and Nurses from Delhi, neighboring states and rest of India.

Attending the conference will provide you an opportunity to get exposed to the world's best talent in quality & patient safety. You will also get a chance to showcase your work in the form of posters & oral presentations.
